

BILGE WATER SEPARATORS

ULTRA-SEP Series - Bag to Depth Filter Conversion with Adapter

The NEW Depth Filter conversion Adapter for all Ultra-Sep Series Units enables the use of superior Depth Filters for better filtration, simple operation and longer service life. Adapter installation can be done in port or underway in less than 15 minutes. The switch from bag-style filters to Depth Filters allow the Ultra-Sep Series operate more efficiently and extend time between membrane cleaning.

Upgrade from Basic Bags to Advanced Depth Filter Filtration!

Features

- High-efficiency, Positive-flow Depth Filter
- Gradient Filtering
- Simple Installation
- Ultra-SEP IMO MEPC.107(49) / EC-MED type approved by USCG and ABS

Benefits

- Reduced Maintenance Time and Cost
- Increased Dirt/Oil Filtering Capacity
- Less By-Pass Potential
- Reduced Spir-O-Lator Membrane Cleaning
- Continuous Discharge with Less Than 5ppm Oil Content
